

We are asking you to PLEASE not implement any proposal that would lessen Indiana's Telephone Privacy Law Protection. This has made our lives SO MUCH better. We have not been bothered with unwanted phone calls, as we were in the past. It has been VERY effective in allowing us to have some peace! Before we signed up for this Protection, we were bothered almost every day with unwanted telemarketing calls!! It was just so invasive....I couldn't begin to tell you how many calls we received per week, even per day at times. It was an absolute Nuisance to say the least. It is just wonderful now to not be bothered with calls trying to sell us things we do not need nor want. Thank you, Winston T. Lehman
